**WE CAN ONLY VACCINATE IF YOU BRING THIS LETTER WITH YOU**  
**PLEASE WEAR A FACE MASK/FACE COVERING**

## FLU CLINIC - FREQUENTLY ASKED QUESTIONS

**Why is the flu clinic only available at Stradbroke?** Many practices are using Community Centres for this years' flu clinics as practice's own premises do not allow enough space for social distancing. We needed a venue that had; car parking with two lanes for cars to enter and exit safely, was near a Medical Centre to allow access to the vaccines (which are temperature controlled). Stradbroke Community Centre was the only venue that could offer all of this.

**What time should I attend the clinic?** It is against your surname; i.e. if it alphabetically falls between Abbott & Alner you would attend the time slot for AA-AL or, between Harbottle & Haywood you would attend the time slot for HAO – HAY and so on.

**I was a shielding patient - can I be given the vaccine in my car? –** We have planned the flu clinic very carefully to ensure patients safety. If you were one of the patients that the Government advised to shield, and would prefer to have the vaccine in your car, please tell the car park attendants when you arrive.

**Someone is bringing me to the clinic but they have a different surname - can I attend the clinic at a different time than the time slot allocated to me?** Yes, but where possible please try to attend the time slot that pertains to your surname.

**I am unable to make the flu clinic** - Please ring us in the week commencing the 5<sup>th</sup> October. We are expecting high demand for the vaccine this year and need to wait until after the flu clinics to determine how many vaccines we have left. We will not be able to arrange an alternative appointment until then.

**To ensure the clinic runs smoothly, please wear a short sleeve top under your outer clothes.**

## **CONSENT FORM – YOU MUST SIGN THE BELOW AND BRING THIS LETTER WITH YOU TO THE FLU CLINIC.**

I agree to receive the flu vaccine and I confirm:

- I am not unwell and do not have a raised temperature or any other symptoms of Covid19
- I am not allergic to eggs, albumin or feathers.
- I have not had any previous reactions to the flu vaccine
- I have not already had a vaccination against the flu since the 1<sup>st</sup> September 2020
- If I am on Warfarin, Phenytoin or Theophylline I will tell the nurse before she vaccinates me.
